St. Alban's Held Annual Meeting on Mond'y Night

Financial Report Shows Small Surplus for Year—Election of Officers.

RECTOR ANNOUNCES HIS RESIGNATION

Will Take Effect Late in the Summer but He Will Not Leave the Diocese.

The annual meeting of the congregation of St. Alban's was held on Monday evening, the Rev. A. D. Currie presiding. He gave a review of the activities of the church organizations and expressed appreciation for their co-operation, especially the Women's and Junior Auxiliaries.

The Senior W. A. by their statement showed they had raised more money than had been given through the envelopes and church offertories at the regular services. The Junior W. A. had also donated towards the church funds, and the Sunday school had defrayed the cost of the belfry in which the bell donated by Mr. Geo. H. Snod was placed, and also had met the cost of the brass tablets placed in the church.

The Senior W. A. financial report was read by Mrs. Clifford, secretary, showing total receipts of \$802; the Junior W. A. report by Isabel Atkinson, and the Sunday School report by the rector.

The vestry's financial report was read by H. T. Halliwell, the main items of income being from church offertories and envelopes, totalling \$75.15, with \$63.75 arrears, carried over to 1930. In 1928 the total offertories amounted to \$330.15. The W. A. had donated \$130 towards cost of insurance which rightly should be met from church offertories. It was pointed out that it would be necessary during 1930 for more church members now living in town to contribute towards church support if the expenses are to be met and the church kept in repair. At present there are many who though listed as church members, do not contribute. Thanks was expressed to the envelope secretary, Mr. A. J. Morris,

MILLIONAIRE BROKERS ARRESTED

The arrest of the principals of the brokerage firm of Solloway, Mills & Co. on instructions of the attorney-general of Alberta created a sensation over the week-end. This firm, widely represented by branch offices across Canada, has made a meteoric rise to prominence in the past five years, and the outcome of the investigation by the government will be watched with a keen interest by the public at large. "Not since the hectic days of the Picarello-Lassandra murder trial has so strong an array of counsel been briefed for the province of Alberta to conduct a prosecution as in the present case against I. W. C. Solloway and Harvey Mills of the brokerage firm of Solloway, Mills & Co.," states a despatch from Edmonton.

for his faithful attention to this branch of church work, and though not present, he had intimated that he would continue in office. He was accorded a vote of thanks, as were also the Senior and Junior W. A., and Sunday School officers and the organist, Mrs. Clifford, and the choir.

Announces Resignation

Mr. Currie stated that owing to periodic breakdowns of health, after careful consideration, he had decided to resign from this parish. It will be four years next August since he came here and he had remained longer than any previous incumbent. Much as he and Mrs. Currie would regret leaving Coleman, yet he felt that it would be advisable to do so, and the Bishop had accepted his resignation, which would not take effect till late in the summer. He will remain in the Diocese of Calgary, in which he had labored for over twenty years, and on the Bishop's return from the Lambeth conference, he would be advised of a new appointment.

Mr. Barnes expressed on behalf of the congregation appreciation of Mr. and Mrs. Currie's work here, and noted with regret that he had decided to seek a change. He moved a hearty vote of thanks, and was seconded by Mr. A. L. Watkins, who expressed the hope that in his new field his health would improve. Mr. Currie briefly thanked the meeting for their kind expressions, and stated that he knew he had not pleased everybody, but only a saint could do that. However, he felt pleased that the majority had received the secretary, Mr. A. J. Morris,

(Continued on Page Eight)

Installation Occasion of Enjoyable Evening

Minerva Chapter, Order of Eastern Star, Headed by Mrs. G. Dickson as Worthy Matron.

At the regular meeting held last Thursday, the following officers were installed for 1930: Mrs. A. McLeod, P.M., was the installing officer, Mrs. W. Milley, P.M., marshal, Mrs. W. Roughton, P.M., chaplain, and Mrs. G. R. Powell organist.

Officers: Mrs. Geo. Dickson, worthy matron; Robert Evans, worthy patron; Mrs. Harry Gerner, associate matron; Alan J. Brown, associate patron; Mrs. H. E. Gate, secretary; Mrs. R. Evans, treasurer; Mrs. John Jackson, conductress; Mrs. G. Pattinson, associate conductress; Mrs. J. McCartney, chaplain; Mrs. Johnstone, marshal; Mrs. C. R. Powell, organist; Mrs. Gillis, Adah; Mrs. Walker, Ruth; Mrs. Thomas, Esther; Mrs. Rippon, Martha; Mrs. Morris, Elsie; Mrs. Brown, warder; Mrs. Wilson, sentinel.

Visitors present from Blaimore chapter were Mesdames Reece, Ferguson, Chappell and others.

LASLETT'S ANNOUNCE

BIG MID-WINTER SALE

Just when people are scanning the horizon for bargains, Laslett's store blossoms forth with a full page advertisement, announcing two weeks' selling of bargains of unusual merit. Mr. Laslett says that with their drastic price cutting program working at full speed, they are offering the best values in the Crow's Nest Pass today. Attention is directed to the list of bargains. The sale opens on Saturday morning. Act quick and be there early.

GINGHAM AND OVERALL DANCE

The Italian Ladies' Society announce a grand dance for Monday evening, Jan. 20, in the Italian hall, at which Mrs. Altermatt's orchestra will furnish the program. The public are cordially invited. Admission \$1.00 per couple.—(Adv.)

Polish Amateur Society Dramatic Concert Sunday

Very Interesting! Dramatic Act in five scenes, to be staged by Polish Amateur Society on Sunday, Jan. 19th, in the Polish hall at 7:30 p.m.

Phases of scenes in Carpathian Mountains in years 1914-15. Characters—Polish Legionists. Silver collection taken. Come one, come all!

WHIST DRIVE WINNERS

The weekly sale of the Knights of Pythias held last Saturday was featured by the usual whist drive, the winners being Mrs. J. Emerson, Mr. A. Walker, H. Turner and Walter Nelson.

CARD OF THANKS

Mr. J. C. Cox desires to express his thanks for the many expressions of sympathy received in the passing away of Mrs. Cox, and to all who so kindly sent flowers.

Mr. J. C. Cox returned on Sunday morning from Vancouver, where Mrs. Cox was buried in Ocean View cemetery. Whilst there he received word of the death of Mrs. Cox's nephew in Seattle (Morgan Jones) and he motored to that city to attend the funeral, held on Jan. 7. He states that he was met in Vancouver by Mr. Kerr, the worshipful master of Mount View Lodge, A. F. & A. M., and Chas. Oumette, a former master of Summit Lodge, besides a number of former Colemanites. Mrs. Davies, of Edmonton, a sister of Mr. Cox, who accompanied him to Vancouver, will return to her home at the end of the week, and Mrs. Williams (sister) who also accompanied him, returned home to Ponoka earlier in the week.

Once on a Time

The teacher was examining a class in physiology: "Lucy, will you tell us what is the function of the stomach?"

"The function of the stomach," the little girl answered, "is to hold up the petticoat."

Bellevue Won League Game

Coleman played a tight game at Bellevue on Tuesday evening in the league series, but had to exert themselves with the small end of a 5-4 score.

A goal scored by Coleman was not allowed. The goal tender first put up his hand for a score, then withdrew it, and being questioned by the referee, stated it was not a goal. This decision caused some dissatisfaction among the Coleman team.

Vaigntonovon, playing defence for Coleman, played a stellar game, scoring two goals in the third period in half a minute. Gate, playing sub, added another to Coleman's score in the third period.

Coleman's line-up was Colgrove, goal; Velpreva and Vaigntonovon, defence; Fraser, Lilya and Jenkins, forwards; Gate and Kubin, subs.

Summary: First period, 0-1, Turner from Hallworth, 0-0 Brooks. Penalties, Turner 2 minutes.

Second period: 0-7, Danbois, 10-2 Fraser from Lilya. Penalties, Danbois 2 minutes.

Third period: 0-1 Brooks from Charlesworth, 0-1 Turner from Brooks, 0-0 Gusty, 0-2 Gusty, 1-7 Gate. Penalties, Velpreva 2 minutes.

In the last minutes Bellevue did not get across their blue line, and had it not been for the disputed goal not allowed to Coleman, overtime would have been required to reach a tie.

W. Alexander refereed.

Blaimore Bonspiel is Now in Full Swing

Contrary to general rule, the Crow's Nest Pass bonspiel this week has been played without a thaw setting in to mar the play, and the cold weather has added zest to this popular event among the curlers.

Eight sheets of ice have been in use, and curlers from Lettbridge, Fernie, Coleman, Pincher Creek, Bellevue and Blaimore were entered.

Coleman rink taking part were skippered by S. Moore, H. C. McBurney, J. H. Boulton and Ed. Leduc.

Despite a temperature of 41 below zero this morning, the curlers left to reach their games at the bonspiel, full of pep and undismayed by the cold weather.

Local News

Be sure to see the week-end feature at the Palace theatre. You'll enjoy the splendid program—100 per cent, talking.

The members of Summit Lodge are holding a social this evening to which Masons, members of the Eastern Star chapter and their families are invited.

Ludwig Stevulak, son of Jan Stevulak of West Coleman, is reported to be now playing hockey in California. He was one of the star players last year on Coleman team.

On Christmas Day the patients at the hospital were cheered by gifts from Geo. Pattinson and Dr. Borden, and the staff under Miss Hibbard, matron, decorated a Christmas tree, which gave a festive appearance and was appreciated by the patients. P. Locke, secretary of the hospital board, asks The Journal to express thanks to those who helped to make Christmas cheerful for those in hospital.

Coleman Boy Scouts are working energetically with a view to purchasing uniforms as early as possible. Their last whist drive netted them \$46, and everything in prizes and refreshments was donated by business men and others, who are ready to help the boys. Assistant Scout Master H. Turner has arranged another whist drive for Feb. 10, and already has some handsome prizes donated by business men. The admission is 50c and the boys will embark on a ticket selling campaign.

TOWN OF COLEMAN

DOG LICENSES

All licenses to keep dogs in the town must be paid by March 31, 1930. Owners of dogs not having taken out a license by that date will be prosecuted under the by-law governing same. By Order of the Council.

JUNIORS BATTLE IN 1-1 TIE GAME AGAINST BELLEVUE

Coleman and Bellevue junior hockey teams played a tie game on Thursday evening, Jan. 9th, the score being 1-1.

Bellevue scored in the first period, Knezic making the shot. In the second period Fraser McLeod evened the score for Coleman, and the third was scoreless.

The lineup was as follows:

Bellevue: Makin goal; Morris and Knezic defence; Warn, Hasney, Goodwin forward; J. Hlasney, Kuzavak subs.

Coleman: Tony DeCocco goal; McLeod and Johnson defence; B. Fraser, Pattinson, Oliva forwards; Korman, Clarke, Griffiths subs. Referee, V. Colgrove.

HOT GAME AT HILLCREST

The league game between Hillcrest and Coleman last Friday, resulting in a 5-1 victory for Coleman, was, according to the Lettbridge Herald correspondent, a real battle, in which one of the Hillcrest players started to fight with the referee, and was ruled off for the balance of the game. Bill Wright and Angelo Gentile accompanied the Coleman team to guarantee their good behaviour.

Eugene E. Zarne, a former Colemanite, now travelling passenger agent for the North German Lloyd Steamship Co. visited in town during the week. He now resides in Edmonton.

"Two Black Crows," (Mack and Moran) was the drawing card at the Palace theatre the first half of the week, and these well known artists greatly delighted those who saw them on the screen.

The feature picture last week-end entitled "The Careless Age" featuring Douglas Fairbanks, Jr. and Loretta Young, proved a very interesting picture, and Doug, Jr. played the part of the fascinated and disappointed youth true to life.

The talkies increase in popularity, and Manager Dow promises some extra good features in the near future, son closes.

Crow League Is Nearing Close of Play Schedule

Locals Meet Hillcrest Friday Night in League Fixture—Exhibition Game Monday with Blaimore

The last league match of the Crow series to be played here will be between Hillcrest and Coleman tomorrow evening. Hillcrest has been in the cellar so far, but like true sports they have played their games and contributed their share to hockey interest in the Pass. The boys there have worked under a handicap with an open air rink, but they deserve credit for sticking to it under the handicap.

They will be accorded a good reception by the fans here, and all are urged to turn out and give the boys a hand.

Arrangements will likely be completed by the time this appears in print for an exhibition game here on Monday night between the old rivals, Blaimore and Coleman. Blaimore has the league clinched by their defeat of Lettbridge Tigers last Saturday, but Coleman team is still desirous of crossing sticks with the champions. It promises to be an even better game than any of the league games this season. Do not miss it if you enjoy a few thrills. Both sides will have strong lineups.

The final game of the league will be between Lettbridge and Blaimore at the latter town on Wednesday, Jan. 22.

Yesterday Coleman went to Pincher Creek to return the game with Pincher. They played here last season. Though the league season is over, it is expected a number of exhibition games will be played before the season closes.

This Week-End at Palace

A New Year Message of Peace

Radio, as a great unifying force in the national life of Canada, was again demonstrated on the second day of this new year when speeches by Hon. W. L. Mackenzie King, Sir Robert Borden, and General Jan Christian Smuts, former Prime Minister of South Africa, were broadcast over the Dominion from the Atlantic to the Pacific, enabling tens of thousands of Canadians to clearly hear every word spoken.

The importance from a national standpoint of Canadians being able to listen to such speeches as those given by Premier Ramsey MacDonald, and General Smuts, can hardly be over-estimated. They not only serve to link Canada more closely to other self-governing units of the great British Commonwealth of Nations, but they likewise help our people to learn of Canada itself as it is seen and appreciated by world statesmen.

Many of the problems confronting South Africa in these early years of its autonomy as a self-governing Dominion, are similar to those which confronted young Canada and the Fathers of Confederation fifty and sixty years ago. In South Africa, as in Canada, they have problems relating to the racial origin of the two major groups in the Commonwealth and inherent in which is the problem of language. In addition, South Africa has the problem of the native black races which, fortunately, we are free of in this Dominion.

In his short address, Sir Robert Borden referred to the fact that Canada and South Africa, at the Peace Conference, appeared to have a clearer perception of the future of the Empire than did others of the Dominions. Canada and South Africa found themselves entirely in accord. Sir Robert Borden did not leave the point, nor did he take time to explain just why this should be so. It is not the reason quite self-evident? Here in Canada, at times, when one cause or another, racial and language difficulties crop up, and dishonorable use is made of these differences and difficulties to inflame the passions and prejudices of people, the question is frequently asked in the English-speaking Provinces: Why should Canada be obliged to recognize the French language, and continue certain old French laws, when Australia is not so bound?

The answer is not far to seek. Canada, like South Africa, is a conquered country. It was originally a French possession, but was wrested by force of British arms from France, just as the Transvaal and the Orange Free State were wrested from the Boers. Australia, on the other hand, was colonized by English-speaking people. There was no conquest, except that over the native races. When France ceded Canada to Britain, and when the Boers laid down their arms in South Africa, treaties were negotiated between Britain on the one hand, and France and the old Boer republics on the other. In those treaties Britain solemnly pledged her national word and honor to the observance of certain things, and among these was recognition of certain racial, religious and language rights and privileges.

Accorded full Dominion status, the duty and responsibility of maintaining and observing both the letter and the spirit of these treaty obligations devolves upon Canada and South Africa. The national word and honor of these two Dominions is pledged just as solemnly as is that of Great Britain itself. And if Great Britain, Canada, South Africa, and the whole Empire were prepared to go to war and make all the sacrifices entailed in the great world struggle with Germany in order to keep Britain's pledged word guaranteeing the neutrality and independence of Belgium, how much more should all portions of the Empire loyally, faithfully, generously, fulfill those obligations which alone made Confederation possible in Canada, and has made South Africa a loyal unit in the Empire?

In his speech, General Smuts dwelt at length upon Canada's leadership in the Empire, and the great contributions which this Dominion has made in the cause of national unity, Empire unity and world understanding. It was Canada's example which made union in South Africa possible. It was the example of the British Empire which made the League of Nations possible—the League being, as General Smuts pointed out, but the exemplification and extension of the same principles upon which the British Empire is founded and continues to exist and prosper.

Speaking of Canada, General Smuts used words which every Canadian should take to heart, and which, in concluding this article, we quote:

"You have taken the lead in many respects. You took the lead in racial settlement. The Prime Minister has referred to the coincidence with our situation in South Africa. Our racial circumstances resemble your own. If we have reached a happy solution of our great racial question in South Africa, it is largely due to the precedent you have set. You found the first solution of the racial question and we have followed you, and the precedent you have set and which we are following, I hope will be followed more and more by the other nations of the world, so that racial questions will cease to trouble the peace of the world and, instead of being a source of division, will become the bond of union between the nations of the earth."

A Consoling Thought

It was necessary for taxation purposes to decide which side of the Canada and United States border a farm, which an old lady had just purchased, actually lay. Surveyors plainly announced that the farm was just on the American side of the border. The old lady smiled with relief. "I'm so glad to know that," she said. "I've heard that winters in Canada are terribly severe."

Novel Wall Decoration

In a barber's shop in Kingston, the walls and ceilings are completely covered with thousands of minute pieces of plate-glass mirror which the proprietor, Mr. Festa, has cut and painted in all colours of the rainbow and just on the American side of the border. The old lady smiled with relief. "I'm so glad to know that," she said. "I've heard that winters in Canada are terribly severe."

A man with no aim in life is just as much hand-capped as a dog with no tail to wag.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has been named for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

A DISTINGUISHED VISITOR

General Jan Christian Smuts, P.C., C.H., former Premier of the Union of South Africa, probably the most picturesque figure of the great war and the great peace that followed it, photographed in the Windsor Station of the Canadian Pacific Railway on New Year's Day. This was the first time in his long career that he had crossed the Atlantic to visit this continent and to fulfill his intention of "seeing something of Canada and Canadians at home, and to get a living impression of the most important of the young British Dominions." While in Montreal he was admitted to an LL.D. Degree by the University of McGill.

Cheap Phonograph Records

New Chemical Composition Will Make It Possible To Produce Records To Sell At 15 Cents

Phonograph records selling at 15 cents each and retailing like magazines at newspaper stands throughout the United States, will go on the market soon, as the result of the discovery of a new chemical composition known as durium, according to an announcement made by Dr. Hal T. Beans, professor of chemistry at Columbia University.

A huge corporation, known as the Durium Products Corporation, already has been formed for the manufacture of records, the announcement said.

Discovery of the new composition was made after three years of experiment, according to Dr. Beans. Durium is liquid in its original form, he said, and is transformed by subject to heat into an insoluble, infusible solid, which combines hardness and flexibility to a remarkable degree.

Records made from durium are printed on an ordinary printing press. A disc of fibre paper is covered with the substance, which is a clear golden color, resembling amber.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unhealthy conditions in the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have attacked their power in hundreds of cases and at all times are thoroughly trustworthy.

Would Take Some Fixing

The following letter was received at the office of a railway mail service company: "Dear Sirs:—The evening papers have not been coming regularly. Today I got yesterday's paper, and when I got yesterday's paper today, the next day I got the paper of the day before the day of the paper. I got the day before. Last year I received the paper of the day before and never once was there a mischievous Please fix it."

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Exterminator.

The Crown Colony of Hong Kong was ceded by China to Great Britain in January, 1841.

Visitors to the English Parliament average 5,000 on ordinary days, and more than 20,000 every Saturday.

TAKE COD-LIVER OIL AND LIKE IT

Book Brings Good Price

First Edition Of Hawthorne's "Scarlet Letter" Worth Large Sum

To buy a book for \$1 and two days later receive an offer of \$1,200 for it was the good fortune of Mrs. Dora Hood, of Toronto.

Recently Mrs. Hood purchased a group of old books and discovered among them a first edition of Nathaniel Hawthorne's "Scarlet Letter," printed at Boston in 1850. The book is quoted in book-sellers' catalogues at prices ranging from \$1,000 to \$1,500. Besides "The Scarlet Letter," Mrs. Hood found a first edition of "Marble Faun" by the same author, printed in 1860, and valued at \$100.

WAS ALWAYS AILING

NEVER FELT WELL

Health Restored Through the Use Of Dr. Williams' Pink Pills

"I am one of the many who have found new health through the use of Dr. Williams' Pink Pills," says Mrs. Everett Dove, South Nelson, N.B. "For some years I never felt well, and at times was so weak that I would be confined to bed. At the very best I was in ailing condition and found it difficult at all times to do my household work. I was subject to headaches, poor appetite, breathlessness at the least exertion, and very pale. Before Dr. Williams' Pink Pills were recommended to me I had tried several medicines, but without any good results. I had been told that Dr. Williams' Pink Pills were a good remedy, and finally I consented to do so, but without much hope that they would help, where other medicines had failed. But in this, to my joy, I was mistaken. I had not been taking the pills very long when I found they were helping me. As I continued their use I found my appetite improving, I slept better at night, and my strength was gradually returning. I continued taking the pills for several months when I again found myself a well woman, and I believe that had it not been for Dr. Williams' Pink Pills, I would today be a helpless invalid. The pills have since been taken by others in our family, with the same beneficial results. I strongly urge every weak woman to try this grand health-building medicine."

If you will send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., a little book, "Building Up the Blood," will be mailed you postpaid.

Madrid's Great Worry

Abandoned Donkeys Are Proving Problem For Spanish City

New York has the problem of disposing of abandoned automobiles, but in Madrid it's abandoned donkeys. Every once in a while a little donkey is found on the streets, either lost, or abandoned by an owner who could no longer afford to feed the animal.

The difference between an abandoned automobile and an abandoned donkey is that the automobile occupies space, but eats nothing, while the donkey does both. The City of Madrid spends quite a bit of money every time a donkey is found on its hands, and is therefore anxious to get rid of him as soon as possible. Auction sales are announced, but frequently no buyers are immediately found.

The Oil For the Athlete.—In rubbing down, the athlete will find Dr. Thomas' Electric Oil an excellent article. It renders the muscles and sinews pliable, less the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years, have been using it can testify to its value as a lubricant.

For the first 10 months of the present year Canada's total exports were \$1,004,635,235. In the corresponding period of 1928 exports totalled \$1,070,909,345. The decrease in grain and four exports are almost twice as much as the total decrease of all exports. The increase in manufactured goods largely offset the falling off in the grains.

Minard's Wards Off Grippe.

The United States ranks first among the countries exporting rayon hosiery to Egypt.

Safeguarding Life At Sea

Parliament Will Likely Deal With Problem At Next Session

Parliament at the forthcoming session will probably be asked to enact 'legislation' on putting into effect some of the provisions of the convention which resulted from the "safety of life at sea conference." This was held last year and was attended by Alex. Johnson, deputy minister of marine. While the general provisions of the convention do not become effective until 1931, a number of them are considered of sufficient urgency to warrant their being adopted by the signatory governments at the earliest. This has particular bearing on radio apparatus. The convention agreed that henceforth ocean-going ships generally must carry wireless. It will be compulsory for passenger vessels and also for freighters of 1,500 tons and over.

Each administration has discretion to exempt from this provision specified voyages where the administration is satisfied that these do not involve any hazard.

According to international agreement, a passenger ship is one which carries 12 passengers and over; but it is realized that there are circumstances under which small vessels coming within that classification operate without the remotest risk. Such ships would be exempt from the proposed legislation.

Hitherto one of the difficulties has been the equipping of frigates with radio apparatus. The cost of maintenance, involving, as it does, the payment of no fewer than three operators, is at times prohibitive. In order to meet this problem, however, the conference has devised an automatic system which reduces the number of radio operator men to one. This invention makes it possible for a ship to receive an "S.O.S." in the form of a warning signal. The stricken vessel sends out its message in four second dashes, and this reaches the one-man radio equipped freighter by the ringing of a bell both in the signal-house and in the chartroom. Thus, if the operator is off duty, the officer on watch receives the warning signal, and immediately is able to communicate that fact to the operator who can then proceed to his post and take the message.

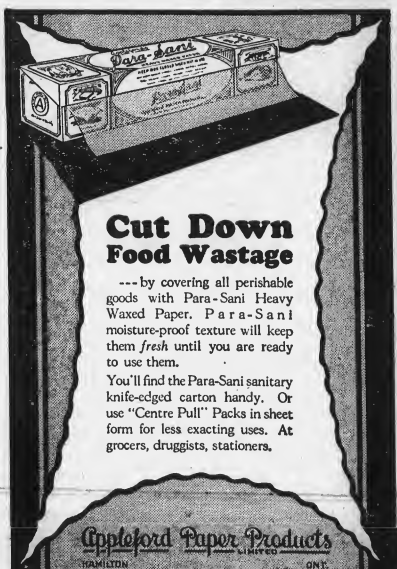

The conference developed other requirements for safeguarding life at sea, but it is believed that only those dealing with radio will be taken up in the Canadian parliament this next session.

Settling the West

538 Families Settled Permanently On Canadian Farms By Colonization Association

A total of 538 families were settled permanently on Canadian farms in the first eleven months of 1929 by the Canada Colonization Association. It was stated at Saskatoon the other day. The total does not include those families placed as workers for other farmers, and which, if added, would raise the total to 1,210 families. The area covered by the permanent placements this year is 123,411 acres.

Winds are produced by differences in atmospheric pressure in various locations.

Cut Down Food Wastage

---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

HUNTER-MARTIN & CO., REGINA, SASK.

THINKS FEDERAL AID SHOULD BE FORTHCOMING

Edmonton.—A statement issued in Ottawa by Hon. Peter Heenan, Minister of Labor, to the effect that unemployment conditions and relief measures are entirely a provincial and municipal responsibility, is challenged by Premier Brownlee. Mr. Heenan had said that at the Dominion provincial conference in 1927 this position had been recognized by the provinces, whose representatives had made it clear that they did not wish the Federal Government to engage in such measures.

To this Mr. Brownlee answers that he has no recollection of any such attitude being taken in behalf of the provinces, and in fact the latter had strongly objected to the Dominion acting in such questions without consultation. The position of Alberta in the matter was again intimated to Hon. Mackenzie King on the recent visit to Ottawa.

"Under normal circumstances," says the Alberta premier, "unemployment relief might be dealt with as a provincial and municipal issue, but there do come times when because of national considerations all governments should join in sharing the burden. The unemployment of the present season is a case in point. It is not due to local circumstances but arises from national conditions and it is therefore a sound argument that all governmental organizations should at such a time forget the nice distinctions of the B.N.A. and see how best they can together share the common responsibility."

Over 72 per cent. of the men now being given unemployment relief have been found to have come to Canada within the last five years, and the majority to have been here less than five years. A fairly large number of them have come during the past year despite strong representations by the provincial government that immigrants of that type were not wanted under existing conditions. Premier Brownlee gives this as the outcome of the charges that have been made of the unemployed men who have registered with the relief bureau and he regards it as an effective answer to the argument of the Dominion authorities for the unemployment situation.

"On the immigration question we are subject," he said, "to Dominion policies and measures, and it does seem inconsistent that the Dominion should take the position there is no federal financial responsibility."

Optimistic Over Parley

British Premier Thinks Prospects For Naval Agreement Bright

Lossmouth, Scotland.—Prime Minister Ramsay MacDonald, who has returned to London after a fortnight's holiday in his Scottish home, is full of optimism over the prospects for the five power naval disarmament conference. He said that arrangements were well advanced for the meeting, which opens on January 21. "I feel very optimistic about the prospects. There is no use in shouting before it is over. There are one or two difficult matters arising out of the different conditions of the countries, but see no reason for fearing that an arrangement will not be reached."

Asked whether the government proposed limiting the size of battleships to the tonnage of the earliest dreadnought, "We shall deal with every class except models, the prime minister's view of warship from dreadnought to submarine."

"Things are very well advanced. We know that there are little points where we have not agreed, but none of them are of such great importance that an agreement is impossible."

Urge Recognition

Of Canadian Race

United Farmers Of Manitoba Submit Report At Convention

Brandon, Man.—Recognition of the existence of a Canadian race was strongly favored in the report on legislation submitted to the annual convention of the United Farmers of the Farm Women of Manitoba. It was pointed out that, while the word "Canadian" is now to be accepted in census forms under the heading of nationality it is not a permissible entry as a racial or tribal origin. The report contends that many of the races accepted under this heading are "of a more polyglot origin than the present Canadian race."

W. N. T. 1820

Canada and U.S. Air Mail

Four Direct Contacts To Be Established Between Systems Of Two Countries

Ottawa.—Closer co-operation between the Canadian and United States postal services relative to airmail, and an extension of the air mail systems of both countries in the West are matters which have brought W. J. Irving Glover, second assistant postmaster-general of the United States to Ottawa.

Mr. Glover, who is in charge of air mail and water transportation of mail in the neighboring republic, was conferring with Canadian Postal officials.

Of immediate concern was the inauguration of the new Canadian prairie service, which goes into commission early in February. Negotiations are on foot to link this up with the United States midwest system and the next international development, according to Mr. Glover, will be in an airmail line from Minneapolis and St. Paul to Winnipeg, via Fargo and Grand Forks, N.D.

Subsequently this will be supplemented by a line from Great Falls, Mont., to Regina, Sask. Four direct contacts will thus be established between the air mail systems of the two countries—Montreal and Albany; Toronto and Buffalo; Winnipeg and Minneapolis; and Regina and Great Falls.

Mr. Glover spoke in terms of high praise of the rapid development of the Canadian air mail services. The officials of the United States were proud of the progress that Canada was making in aerial enterprises and watched that progress closely and with friendly interest. For a nation of such scattered population in a territory that was so vast Canada had accomplished things that compelled the admiration of the world.

Urges Conference On

Status Of India

Gandhi Says Conference Would Respond Gladly To Invitation Armadada Bay, India.—"The time must come when there may be a fight to the finish with our backs to the wall," declared Mahatma Gandhi, noted Indian Nationalist leader, writing in the newspaper Young India. Gandhi says he believes if the British Government should invite the Indian National Congress to discuss and form a scheme for independence, the congress would respond gladly.

"There must be a conference at some stage or other," Gandhi writes. "Whether such time be far or near depends upon how we utilize our years of grace."

The Nationalist leader said he did not see the atmosphere today for a campaign of civil disobedience.

"If the British Government invites the National Congress to a conference, I would consent to discuss and form a scheme but a scheme definitely for an independent government, and if it fulfills other conditions suitable to such a conference, I take it the leaders of the congress would respond gladly to the offer of such a conference."

Dominion Debt Lower

Financial Report Issued At Ottawa Shows Substantial Drop

Ottawa.—The three-quarter mark in the present fiscal year finds Canada with increased revenues, increased expenditures and a substantial drop in the net debt of the Dominion. The financial statement issued through the Department of Finance shows total ordinary revenue of the Dominion amounting to \$351,287,325 for the nine months of the present fiscal year which closed on Dec. 31 last.

For the corresponding nine months period of the preceding fiscal year ordinary revenues totalled \$345,282,544. The increase therefore amounts to \$6,004,781.

Mounties End Long Chase

Chinese Convicted In Vancouver Traced Over Thousand Miles

Chicago.—After a thousand mile chase through Western Canada and the western United States, Wong Wa, Chinese, who was convicted of peddling narcotic drugs in Vancouver, in 1928, was in custody here through the efforts of the Royal Canadian Mounted Police. Wong Wa fled from Vancouver after his conviction, forfeit \$10,000 bail, and fled through Seattle to east to Dakota and back into Canada, the Canadian authorities said. He was traced to Winnipeg, Windsor, Detroit and finally to Chicago where extradition proceedings will be taken.

Kidnap Chinese Commander

Foo Chow, China.—Yang Shu Chang, commander of the Chinese navy and five members of the Fukien provincial government were kidnapped at an official dinner by a gang of bandits. The bandits entered the dining room and held up the guests with revolvers.

Four Aviators Killed

Members Of Royal Air Force Meet Death In Collision

London, England.—The British Air Ministry announces that four members of the Royal Air Force had been killed at Abu Buler, Egypt, in a collision of two aeroplanes in mid-air.

The officers who were piloting the machines were Flight Lt. Richard S. Greenalade, and Flying Officer Charles E. Galpin. The two other victims were non-commissioned men.

The crash was the first fatal one in the Royal Air Force this year. Last year there were 42 deaths in the Royal Air Force in flying accidents.

Men Scramble For Jobs

Two Thousand Men In Frantic Fight For Work In Liverpool

London, England.—An answer to those who think the unemployed prefer the dole to work was given in Liverpool, where 2,000 men were so frantic in a fight for the work of unloading the steamer "Oropesa" that they broke up the stands in their rush.

When the foreman appeared there was a stampede of men who fought and scrambled to get in front, and there was some time before order was restored.

OFFICIALS OF WHEAT POOL GOING TO LONDON

Winnipeg.—Officials of the Canadian Wheat Pool are to meet in conference at London, England, with members of the British Government, it was announced recently.

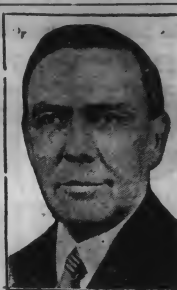

The representatives of the co-operative organization are leaving Winnipeg to confer with Right Hon. J. H. Thomas, Lord Privy Seal and Minister of Employment, in the British Government.

According to the announcement from Pool headquarters, the London parley comes as result of an invitation extended by Mr. Thomas while in Winnipeg last September, when he conferred with Wheat Pool heads. The Pool representatives at London will be A. J. McPhail, president of the Canadian Pool; D. R. McIntyre, eastern sales manager; and W. A. MacLeod, director of education and publicity for the Canadian Pool.

While the Pool statement does not mention the subject of the conference it points out that Mr. Thomas' main purpose in his visit to Canada last summer was to explore every avenue for securing a more uniform flow of outward and return cargoes from Canada and the United Kingdom. Various suggestions, it is mentioned, were discussed with Pool representatives for securing a more even and regular movement of Canadian wheat to British ports.

During their stay in the Old Country, the Pool representatives will meet Henry J. May, secretary, and Sir Thomas Allen, director of the International Co-operative Alliance, in connection with a proposed conference of producers and consumers co-operative organizations to be held next spring.

ASSISTANT COMMISSIONER

C. A. Van Scoy, newly-appointed Assistant Commissioner, Department of Immigration and Colonization, Canadian Pacific Railway, Montreal. He succeeds J. N. K. Macalister, who is now Chief Commissioner of the Department. For the past four years Mr. Van Scoy has been superintendent of Colonization for the Canadian Pacific at Winnipeg, in charge of Western Canadian and United States offices, and has had seventeen years' colonization experience with the Company.

Parliament To Open

February Twentieth

By-Elections Will Then Be Over Before Session Starts

Ottawa.—Parliament will open on Thursday, February 20, or about two weeks later than the opening date last year. In announcing the date of the opening, at the conclusion of a long cabinet meeting, Premier Mackenzie King pointed out that by-elections were pending in three constituencies and that it was desirable to have them over before the session commenced.

The three constituencies in which by-elections are to be held are Bagot, Chateaugay-Huntingdon, and Brandon. In the latter constituency, where Hon. T. A. Crerar, Minister of Railways and Canals, is seeking election the contest is set for February 12, while in the two other constituencies the date is earlier. Consequently, it may be possible to have the three successful candidates in the House on the opening day.

Retiring Ambassador

Will Visit Canada

Sir Esme Howard To Spend Few Days In Dominion

Washington.—Before his retirement from the diplomatic service about the third week in February, Sir Esme Howard, British ambassador to the United States, will pay a visit to Canada as his goodbye.

Sir Esme Howard and Lady Isabella will spend the last few days of January in the Dominion, visiting Montreal, Toronto, and Ottawa. In the Canadian capital they will be the guests of their Excellencies the Governor-General and Lady Willingdon, at Government House. On January 26 the ambassador will dine with the Canadian Club, at Ottawa.

UNDER THE PALMS

His Excellency Viscount Willingdon, Governor-General of Canada, under the palms at Dominica, British West Indies, with two girls in the old native costumes of the island. Viscount and Lady Willingdon made a cruise of the West Indies on the new boats which the Canadian National Steamships have in service between Eastern Canada and the West Indies.

Will Sound Public Opinion

Premier Anderson Considers Natural Resources Question Most Important Problem Facing Saskatchewan

Saskatoon.—Before replying finally to the offer of the Dominion Government to transfer the resources to the province, the government of Saskatchewan proposes to ascertain to a considerable extent the exact state of public opinion in the province. Dr. J. T. Anderson told a board of trade gathering at luncheon here.

One delegation, he said, had already been interviewed on the subject and another would be seen very shortly.

It was the most important problem facing the province at the moment, he declared, and he held the view that the consensus of opinion of the citizens generally should be ascertained in order that the attitude taken in the reply which would be made, would be representative of the general sentiment in the province.

Pass Canadian Medical Test

Group Of Mennonites May Come To Canada Shortly

Berlin.—"I only wish it were true," was the comment of Dr. Straub, deputy Mennonite refugee commissioner, when asked regarding a report that 3,000 Mennonites are to be sent to Canada and Mexico immediately. "Actually only 137, composed of 30 families and five single men, so far have passed the rigorous medical examination of the Canadian Pacific physician, Dr. S. Gardner."

A cable has already been sent to Ottawa for permission to allow 300 to depart for Canada as soon as the Canadian Federal Immigration doctor at Hamburg confirms the medical tests of Dr. Gardner. The first group will likely leave late in January.

U. F. M. WILL STUDY FORM OF CROP INSURANCE

Brandon.—Insurance against agricultural loss as a means of remedying the farmers' financial condition is to be investigated by the directors of the United Farmers of Manitoba. The annual convention voted to instruct its board of directors to probe the feasibility of crop insurance and similar protection.

Co-operation of the United Farmers of Alberta, and of the United Farmers of Canada, Saskatchewan section, will be sought in the resolution. In the resolution approved by the farm meeting it was requested that a report be submitted at the next annual session.

"Every other type of business is able to obtain insurance," stated John Arnott, of Roblin, sponsor of the resolution, "and none is in greater need of protection than agriculture. Uncontrollable weather and crop conditions have caused the present financial situation among farmers. Half insurance such as is available now, is entirely inadequate as a means of assuring the farmer of a living."

Reorganization of agriculture is the present day need of Manitoba, commented Hon. T. A. Crerar, Dominion Minister of Railways, speaking recently before the annual convention of the United Farmers of Manitoba. Diversified farm operations, he considered, offered the solution for the province's farm problem.

In his first public speech since re-entering into politics as a minister in the Mackenzie King cabinet, the former Progressive leader made no reference to political affairs. Mr. Crerar outlined the progress of the United Farmers of Manitoba since organization in 1903. He referred to the fight for changes in the Canada Grain Act, reductions in tariff, and creation of marketing organizations.

"There never was a time when the United Farmers of Manitoba was so necessary as it is today," remarked Mr. Crerar, referring to the opinion of those who considered that the provincial body should be discontinued.

He thought the United Farmers might investigate the advisability of diversified farming development and stress the value of education, a rural life of supreme importance in nature. Such objects he considered as vital securing better means of credit, more favorable freight rates and lower tariffs.

"Canada is stepping into the arena of public affairs," the minister of railways mentioned. "On Canadians today rests the responsibility of laying the foundations of equity, justice and right. I know of no organization which can better fulfill the duties in the province than the United Farmers of Manitoba."

NAVAL POLICY OF BRITISH PREMIER CAUSES CONCERN

London, Eng.—A certain amount of uneasiness is expressed in some of the newspaper editorials with regard to Premier Ramsay MacDonald's statement on leaving Loughborough for London.

"Britain, with the full content of the admiralty up to now, is prepared to make proposals which will mean considerable reduction on the naval program without in any degree impairing the security of the empire," The Morning Post says: "The country still is in the dark as to what the proposals are," and adds, "while Premier MacDonald claims to be an exponent of new diplomacy, his methods have been at least as secretive as the old."

The Daily Telegraph states: "It must be said that the temper of Mr. MacDonald now discloses and confirms too well an apprehension that has long been entertained. Does he approach the conference with a clear resolution that the country's and the Empire's naval necessities shall be in no way compromised by any forthcoming agreement? What is feared—and the tone of this new statement confirms the fear—is the prime minister's intention to justify his own position by producing the result of the conference, a naval agreement by hook or by crook, and will not be deterred if it is found attainable only through the reckless sacrifice of British naval interests."

Will Introduce Radio Bill

Measure Will Be Discussed At Forthcoming Session Of Parliament

Ottawa.—A bill will be introduced into parliament at the coming session, as a result of the report of the Radio Commission. It will likely be referred to a special committee of the House of Commons before which all interested parties would be given an opportunity of expressing their views. Hon. F. J. A. Gaudin, Minister of Marine and Fisheries, whose department is responsible for radio matters, made this announcement recently. The question will be before cabinet next week when a final decision will be arrived at as to the bill.

"My only desire and the only desire of the government is to provide legislation with respect to radio that will please the majority of the people of Canada," Mr. Gaudin asserted.

The minister explained that radio was a very difficult matter on which to legislate. He was most anxious to get the consensus of public opinion and accordingly the committee would likely welcome views from every quarter. Amendments to the bill proposed by the committee would be given careful consideration by the government because the object was to get an act that would best serve the public.

The radio commission headed by Sir John Aird during the summer brought in a report favoring radio broadcasting to be placed in the hands of a national company owned by the Dominion and on which the various provinces would be represented.

Date Subject To Change

But Prairie Air Mail Likely To Start

Ottawa.—Officials of the post office department have tentatively set the date of the inauguration of the prairie air mail service on February 3.

Indications at present are that the first flight between Winnipeg and Calgary will be made on that date, but it is pointed out that everything depends on the complete installation of beacons over the route.

Considerable delay has already been caused through a shortage in the supply of equipment for night flying, and officials see the possibility of a further holdup. The route cannot be opened until installation of lighting equipment is completed, as most of the flying will be done at night.

Court House For Saskatoon

Saskatoon.—Saskatoon is to take the first step in submitting the province to government for the erection of a court house at Saskatoon. The matter came under discussion at the council meeting this week, and it was decided to bring the matter to the attention of the government.

Shipments Reduced

Washington, D.C.—Official Canadian reports available at the treasury showed that exports of alcoholic beverages from Canada to the United States for November, amounted to 295,498 gallons, a decrease of 235,416 as compared with November of 1928.

NOTES AND COMMENTS

Alberta's government has kept a vigilant eye on operations of stock brokers in this province, the result of which is the sensational arrest of two principals whose firm has been probably more in the public eye during the past year or more than any firm of stock brokers. That there must be good cause for their arrest is evident, and the engaging of prominent counsel by both sides indicates that a keen legal battle will develop.

Though the offices of the firm will continue to operate, public confidence will be lessened in all brokerage operations till people know more of the charges. One thing is very certain, that brokerage operations must be profitable. The firm is reported to have over forty offices in Canada; it has published a news sheet on mining for some time, which must have cost thousands of dollars, liberal disbursements have been made by Mr. Solloway, and general curiosity has been aroused as to how so much money could be made in a comparatively short time. Possibly the investigation will give some light on how to get rich quick. A hundred thousand dollars to an airways corporation, and \$25,000 to something else, appeared to be rather munificent actions, and the general style of liv-

ing indicated that money was no object to the principals under arrest.

The question now on people's minds, is where did the money come from? Doubtless some of those who have lost heavily in speculations will receive some information.

Fernie Board of Trade suggests that Boards of Trade in Alberta between Crows Nest and Lethbridge urge on the highways department the advisability of keeping the road open west from Coleman to the Divide. Fernie states that the B.C. Government would keep the road open to Alberta boundary if it is kept open on this side.

The keeping open of this section of the Red Trail would afford a great convenience to travellers and others using cars for inter-communication between Crows Nest Pass towns. At the power plant at Sentinel it would be appreciated as it would facilitate travel to Coleman and beyond.

Radio broadcasts each day state "Calgary to Vancouver via Cranbrook, open to Coleman, closed beyond." Presumably the only alternative is to ship cars by freight from Coleman to Fernie, causing considerable trouble and delay.

Undoubtedly Boards of Trade should take action and if it is found that the demand for this trail being kept open is fully warranted, both provincial governments should be apprised of the necessity.

Crows Nest Pass bouspiet usually is featured by a spell of mild weather which nearly breaks the hearts of enthusiastic curlers. The finals for some years have been played in a few inches of water. Not so this year! The most enthusiastic curlers shiver and admit it is even too vigorous for their tough hides. Yesterday with the temperature hovering around the 20 below mark all day, and a piercing east wind, was sufficient to satisfy the most ardent cold-weather enthusiast.

FROM OUR EXCHANGES

An Embarrassing Question
Preacher: "Dat's as fine a goose as I evah see, Bruddah Williams. Whar did yo' git such a fine goose?"
Mose: "Well, now, pahson, when yo' preach a speshul sermon, I never axes yo' whar yo' got it. I hopes yo' will show me de same consideration."

Quick Thinking

"Hello! Hello! Is this you, Mac?"
"Aye."
"Is this Mac MacPherson I'm talking to?"
"Aye, spe'kin'!"
"Well, Mac, it's like this: I want to borrow fifty dollars—"
"All right. I'll tell him as soon as he comes in."

West Coleman Juniors challenged the Coleman regular junior team to a hockey game at the rink on Tuesday evening for a stake of \$5.00. When the reporter left the regulars had scored 7-0 against the West Coleman boys.

WORLD HAPPENINGS BRIEFLY TOLD

Five hundred and fifty-three home-steads and eighteen soldiers' grants were filed on through the Dominion Land Office, at Edmonton, during the month of November.

Talking pictures are not yet favored in Sweden. This was revealed by the "Svenska Dagbladet," a morning paper of Stockholm, through a nation-wide symposium.

For the first time in 15 years, due to poor crops and general depression, the Moose Jaw poultry association will not stage its annual show. Decision to this effect was reached at the last regular meeting.

The population of continental United States increased 14,299,000 in the ten years ended July 1, 1928, to 119,309,000, the National Bureau of Economic Research has announced.

In Canada to study railroading, Jun Ko Choy, special representative of the Ministry of Railways, of the Chinese National Government, was a recent visitor at the headquarters of the Canadian Pacific Railway, Montreal.

Award of the 1929 Nobel prize for literature to Thomas Mann was the fortieth Nobel award to be given to a German. France is second in the list of winners with 31. Of the two score German prizes, 23 were for scientific achievement.

Diplomatic negotiations will be started shortly in an effort to induce the Chinese Government to rescind an order refusing permission to the Japan Air Transport Company to operate mail and passenger aeroplanes between Japan and Shanghai, it is understood at Tokyo.

Announcement was made by Hon. W. H. Price, Ontario attorney-general, that the government would not launch prosecutions against those named in the report of Gordon Wallace, K.C., commissioner who recently investigated activities of the Amalgamated Builders' Council in several cities under the Combines Investigation Act.

Modernizing China

Old Style Chinese Lunar Calendar Gives Way To Newer Method

China's modern battle between the Chinese style lunar calendar and the "foreign style calendar" entered a new phase, when, by order of the National government, documents framed according to the lunar calendar became no longer legal.

This is the most concrete attack yet made against the age-old Chinese method of reckoning passage of the months by the moon. Previous efforts to bring about universal adoption of the foreign or Gregorian calendar have found little, in spite of announcement of penalties even for the printing or possession of the old style calendar.

Saskatchewan Lumber Industry

Millions of Board Feet of Lumber To Be Sawed This Winter

Between now and next spring 100,000,000 board feet of lumber will be sawn from Saskatchewan logs and thousands of cords of fuel will be made available for the market. "It is difficult for prairie dwellers to appreciate fully the size of this northern industry," says the "Saskatchewan Farmer," which adds, in regard to improved lumbering methods and the saving of waste, "at least one industrial firm is talking of using hitherto discarded jackpine in the manufacture of cross-tied fence posts and other materials."

The proprietor of a well-known ice-cream firm has gone bankrupt. He is up to his ice in debt.

Ramifications Of War

Future Wars Will Be Carried On Against Civilians As Well As the Soldier At the Front

In modern war it is not armies that are mobilized, but nations, and it is as important in a military sense to starve or bombard the women who are making shells in the factories as to kill the soldiers who are firing the shells. It is as important to cut off the food supplies from the people who make the munitions as it is to cut off the munitions supplies from the firing line. War in the future will not be, and cannot be, more humane than in the past; it must be immeasurably more humane, for not only has the "civilian" ceased to exist in the war sense, but the modern weapons of war, the airplane and the submarine, are especially adapted to carry destruction beyond the theatre of war into the homes of the people.—A. G. Gardiner in the London Star.

Result's Prove Satisfactory

Japanese Poultry Dealers Pleased With Hatching Eggs From B.C.

The Co-operative Association of Poultry Breeders, of British Columbia, reports remarkable success in the shipment of hatching eggs to Japan. A report just received from consignees (the Oriental Poultry Estate, Unewatashi, P.O. Chibak, N. Japan) states that out of the 45 eggs sent six months ago by the steamer "Empress of Russia," 43 hatched out good chicks, and that there are now 22 cockerels and 17 pullets, the latter starting to lay. The association believes this to be a record for so long a journey, and states that the results testify to the great care taken in the transportation of the delicate consignment.

2946

The sunburst treatment at left side of bodice in printed silk crepe is repeated in a p treatment at opposite side, finished with self-fabric covered buckle. A jabot full of plain harmonizing crepe is caught by buckle of bodice. The skirt is circular with extremely full hemline.

Style No. 2946 is designed in sizes 16, 18 years, 30, 35, 40 and 42 inches bust, and exceptionally easy to make. Just a few seams to join and it's ready to wear. Sleeves are fitted with darts below elbows to give the arms a lovely slender appearance.

Alfani's blue canton crepe self-trimmed is very wearable and newest idea of Paris for general daytime occasions.

Hunter green supple silk crepe, black crepe satin, beige crepe satin, dull black silk crepe with jabot of eggshell silk crepe, tomato red crepe de chine, Royal blue crepe Elizabeth, and seal brown crepe silk are charming selections for immediate wear.

Here is an opportunity to have an ultra-smart dress to finish out vacation that will prove a very inexpensive choice.

Pattern price 25 cents.

Where Danger Lies

Accidents Happen Offshore In Unexpected Ways

Those who lack courage for new enterprise, due to fears for their physical safety, should take heart from the records of a Pittsburgh insurance company. If they hesitate to cross the Sixth Avenue at Thirty-fourth Street, or put off from day to day their first airplane ride, a glance at reports of accidents which happen to people in the peaceful pursuit of a humdrum routine should make the avenue and the air seem safe by comparison.

An official of the company was interested in compiling a list of the unusual and unexpected hazards which seem to go far out of their way to find a victim. For fifteen years he kept record of them.

One man kicked a thief out of his shop and broke the bones in his own foot. Another chased a chicken through a barbed-wire fence, and while the fowl escaped, the pursuer was painfully hung up. Then there was the sad case of one who was so firmly embraced by a friend that a rib was fractured.

A talking picture to a friend in the lobby of a building might be considered perfectly safe. Yet in just such placid circumstances, the insurance company reports, a horse came charging into the hall, and trod on the foot of one of the talkers. — New York Times.

Recipes For This Week

(By Betty Barclay)

LEMON COCONUT FILLING

1 cup grated coconut.
1/2 teaspoon salt.
2 cups water.
1/2 cup lemon juice.
2 cups sugar.
7 tablespoons cornstarch.

Cook all ingredients together in double boiler for 45 minutes.

DEVIL'S FOOD

1/2 cup butter.
1 cup sugar.
2 egg yolks.
2 cups milk.
1/4 cups flour.
1/2 teaspoon baking powder.
2 egg whites.
2 squares chocolate.
Grated rind 1/4 orange.

Cream butter; add, gradually, one-half the sugar and melted chocolate. Beat yolks of eggs until thick and lemon-colored, and add gradually the remaining sugar. Combine mixtures, and add milk, alternately, with flour, sifted with baking powder; then add whites of eggs, beaten stiff, and grate orange rind. Bake forty-five to fifty minutes. Frost with the orange frosting. When frosting is cool, spread a thin layer of melted chocolate over the top.

Expense Does Not Count

New York Hotel To Be Built First In Miniature

If the New Waldorf-Astoria, isn't everything it ought to be, architecturally, the fault won't be at the door of Lucius Boomer, Boh Bar of the projected carousell. Blue plans and architect's drawings may be all right for some folk, but not for Lucius. He's hired a floor in a building in 45th street, and over a space of 6,500 feet is having erected exact duplications, on a smaller scale, of practically every important structural unit of the new Inn. These will be fitted together and then Old Man Borne will stand off and take a squint at the ensemble. Anything he doesn't like will be corrected before it's too late.

Another section of the floor space will be a prismatic stratum where interior decorators, artists and others will work out the color scheme of the new hostelry. Entire rooms will be reproduced and grouped until the complete equipment receives a verdict of "not guilty" from the jury that is to decide how the hotel is to be presented to the public.

The cost of the experimental work will be \$200,000.

Device Aids Motorists

To tell motorists whether they are on the road or are headed for a ditch, a device called the "roadmeter" has been invented in England. It contains a level, and depends for its operation on the principle that most roads are graded to curve upwards at the centre and slope off at the sides. The inventor claims that it will eliminate most of the accidents due to fog.

A rule, may work both ways and still be a poor one.

New Device For Lifeboats

Five Projectile Two Hundred Feet and Releases Flame

Some of the blind helplessness of life boats at sea at night is likely to be relieved.

The army, the navy, the steamship inspection service of the U.S. Department of Commerce, and the Coast Guard have under development a device to that end.

With it a man can carry in his coat pocket the equivalent of a standard lighthouse, two hundred feet high, with a light of fifty thousand candle power, with which to signal for help or guide rescue vessels.

The device resembles a big .45 calibre pistol, although its barrel is a little fatter. It fires like a pistol and projects upward two hundred feet or more a projectile about the size of a big cannon cracker. This bursts and releases a fifty thousand candlepower flare, suspended from a parachute.

The suspended light burns thirty seconds and the pistol is designed to be reloaded with one hand so that any desired succession of lights or even a code of signals can be sent aloft.

Waves washing over the lifeboat or swamping it have no effect on the reliability of the pistol. Its ammunition has been stored in salt water for more than twenty-four hours without effect.

Scot At Dry Year Forecast

University Of Saskatchewan Scientists See No Room To Expect Drouth

Scientists at the University of Saskatchewan, declined to accept the statement of Dr. Ralph Delury, of the Dominion Observatory, regarding the probability of a series of dry years. Rainfall is caused by the evaporation from the earth's surface, caused by the heat of the sun, the greater part being from that two-thirds of the surface of the globe occupied by the oceans.

If the heat is constant, the amount taken into the air each year is the same and the moisture that goes up into the air must come down.

Various causes such as the shifting of the ice cap, may cause changes in the climate of certain areas, but the total precipitation is generally considered to vary very slightly.

Germans Using New Fuel

A hundred thousand tons of mud fuel have been ordered by an electricity works on the Rhine. A German company has discovered how to make the mud in the bed of the River Elmscher into a useful substitute for coal. For thousands of years rich combustible matter has been washed down the river from the Westphalian coalfields.

One bee-hive usually contains a queen, 300 to 400 drones, and 40,000 workers.

San Marino, the world's smallest republic, has the second largest national anthem in the world.

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess this greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want.

It is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that it uses a most beneficial effect, and that it uses the development of plants and chickens and the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy and all other buildings. It is economical, unbreakable, flexible and is easy to cut and install. It is now being successfully used for sunrooms, verandahs, schools, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out dust, will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is a square yard of glass of ordinary thickness weighs about 135 to 140 lbs. The improved WINDOLITE requires no fastenings. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask in 100% Sunlight Send for booklet "WINDOLITE"

SUNDAY SCHOOL LESSON

JANUARY 19

JESUS BEGINS HIS MINISTRY

Golden Text: "Repent ye; for the kingdom of heaven is at hand." — Matthew 4:17.

Lesson: Matthew 4:12-25.

Devotional Reading: Isaiah 9:1-7.

Explanations and Comments

The Kingdom of Heaven Is At Hand, verse 17.—From the time of His coming to Capernaum, Jesus began to preach and to say, "Repent, for the kingdom of heaven is at hand." The call to repentance was the message which he bade His disciples proclaim when He sent them out two and two to preach, and in His final words to His disciples after His resurrection, He said that repentance and remission of sins should be preached in His name unto all the nations.

For centuries the Jews had been looking forward to the coming of the Kingdom of Heaven, and by this phrase they meant the restoration of the nation to independence and power under divine leadership. Jesus bade them to make a radical change in their way of thinking, and learn the truth which He sought to teach them, that the Kingdom of Heaven is neither a political nor a political realm, but a spiritual realm. It is the kingdom of the Father's rule in the hearts of men.

The Threefold Ministry of Jesus, verses 23-25.—In verse 23, Matthew makes a general statement. Jesus went in Galilee that He went about teaching, and preaching, and healing. He taught in the synagogues, and while sacrifices were offered only in the temple at Jerusalem, every town and village had its synagogue for worship. He preached the gospel, or good news, of the Kingdom, and healed all kinds of sickness. He came as a Physician, spread throughout Syria, and from the Decapolis, and Judea, and beyond Jordan, people came bringing their sick ones for Him to cure. The word "epileptic," in verse 24, is "lunatic" in the King James' version. An epileptic was called a lunatic, from "luna," the moon, because it was believed that his disease became worse during certain phases of the moon. Possessed with demons and epilepsies, and called "lunatics," it may have been added here by a copyist to explain "divers diseases and torments."

Jesus' ministry was an itinerant one—He went about from place to place teaching, and preaching, and healing. The nature of His work made the fellowship and apprenticeship of disciples necessary. The prophets had their scholars, and the scribes had had their schools; it was a long established custom, but the need of a training school was never as great as now. Jesus had many things to teach that only trained hearers could understand many things to do that only loyal pupils could undertake, a legacy of service to learn that only skilled followers could carry out.

A Mechanical Bethbo

A mechanical bellboy, recently brought over from Europe, was a novel feature of New Year's eve festivities at one of the hotels in New York. It wrote the names of guests on an easel, made announcements and acted as assistant master of ceremonies during the entertainment.

Teacher—Now tell me, what sort of people will wear the biggest crowns in the world?
Bright Pupil—Those with the biggest heads.

"After Baby, Was Weak, Skinny, Gained 22 Lbs."

Invincible Year did it, says Mrs. ...

Honor Intrepid Explorers

Memorial Erected in England In Memory Of John Hornby and Companions

The Christian Daily now being published in the London Daily Mail, has attracted deep interest in the Old Country.

A memorial to Hornby and his companions has been erected in the Nantwich parish church, near the old home of his parents. Members of the Hornby family and Mrs. A. Adair, mother of Harold, were present at the ceremony.

The dedicatory prayer contained the words, "We dedicate this tablet to the heroic memory of thy servants, John Harold and Edgar, who sacrificed their lives in the cause of duty and honor."

Inspection on the tablet was: "This tablet is given to the memory of John Hornby, M.C., an intrepid explorer, who, on July 21, 1927, was found dead on the bank of the Thelon River, in Northern Canada, with two companions, Harold Adair, 27 years old, and Edgar Christian, 18 years old, D.R.P."

The hymn, "Fight the Good Fight," was sung. The tablet before unveiling was covered with the Union Jack. The ceremony was performed by the Reverend J. Armistead, vicar of Sandbach, and a cousin of John Hornby.

Educative Blocks

Children are taught many of the words of foreign languages in an easy and interesting manner with the aid of a set of blocks now on the market. Each unit consists of interchangeable words on the faces so that combinations appear as the blocks are turned.

There are twenty-six counties in southern Ireland, and six in northern Ireland.

DO YOU SUFFER FROM CONSTIPATION?

Countless remedies are advertised for constipation. Many relieve for the moment but they are habit forming and must be continued. Others contain calomel and dangerous mineral drugs, which remain in the system, settle in the joints and cause aches and pains. Some are harsh purgatives which cramp and gripe the bowels. Each unit consists of interchangeable words on the faces so that combinations appear as the blocks are turned.

A purely vegetable laxative such as Carter's Little Liver Pills, gently touches the liver, bile starts to flow, the bowels move gently, the intestines are thoroughly cleansed and constipation troubles pass away. The stomach, liver and bowels are now active and the system enjoys a real tonic effect. All druggists 25c and 75c red pkg.

In a Short Time You Will be Run- ning Cars Again!

St. Alban's Meeting

(Continued from Page One)
mained loyal and would carry away many pleasant memories. H. T. Halliwell in speaking of Mr. Currie's tenure here, remarked that the test of a man's worth was the results accomplished. When Mr. Currie came, the parish was in a run-down condition. It has since been improved financially, liabilities had been met, good work had been done among the young people, and generally speaking progress could be noted as a result of Mr. and Mrs. Currie's work.

Doubtless with a change and new environment Mr. Currie would gain renewed inspiration for his work in Calgary diocese, and he would have the satisfaction of knowing that he had seen substantial progress made. Health was the first consideration, however, and it was hoped that wherever he might be appointed, he would be able to carry on as good work as in Coleman.

The election of officers was as follows: A. L. Watkins and R. F. Barnes churchwardens; F. H. Graham, J. Rushon, H. Turner, J. A. Price, H. T. Halliwell and A. J. Morris, vestry.

Refreshments were served at the conclusion of the meeting and a social hour spent.

ST. ALBAN'S CHURCH, COLEMAN

Service Sun. Jan. 17th, morning prayer 11:15 a.m.

Those wishing to be confirmed this year should advise the rector by Jan. 31st at the latest.

The ladies of St. Alban's will hold a whist drive on Mon., Jan. 20th at 8 p.m. Everybody cordially invited. Come and support the ladies.

Mrs. A. G. Bowling and little daughter Muriel, left on Jan. 4th to visit relatives in Calgary and Edmonton.

CLASSIFIED ADVERTISEMENTS

LOST—On Saturday between 2 and 3 p.m., two \$500 bills and one \$200 bill, in the business area. Finder kindly return to Rev. A. D. Currie.

FOR SALE—Chesterfield chair, and Axminster carpet, 9 or 10 ft. square. Apply Mrs. Peter Smith, Sixth St.

HAY FOR SALE—Good quality. Apply to Adam Hammer, Gen. Del., Coleman. 2-13p

For First-Class Work and Quick Delivery, send your HEMSTITCHING to Barton's Music & Sewing Machine Store, Fernie, B.C.

COPY OF ORDER OF NOTICE

Commonwealth of Massachusetts
Hampden County, ss: Jan. 7th, 1930
SUPERIOR COURT

Nora Mitchell of West Springfield, in said county, Plaintiff

Northwestern Casualty & Surety Company, a corporation duly established by law and having a usual place of business in Springfield, in said county, and Silva Scitote of Coleman, Province of Alberta, Canada Defendants.

This is a bill in equity to collect a judgment recovered by the petitioner against the respondent, Silva Scitote, on or about the third day of December, 1929, the amount of said judgment being \$422.50 damages, and \$55.65 costs, making a total of \$478.15. The purpose of this bill is to reach and apply on said judgment certain insurance money provided in a certain contract or policy of insurance issued by the respondent, Northwestern Casualty & Surety Company, to the respondent, Silva Scitote, and that the said respondent insurance company be ordered to pay to your petitioner the amount of said judgment with interest thereon from the date said judgment was entered and also the costs of this action.

It appearing that the said defendant, Silva Scitote, resides out of this Commonwealth, and no service of process has been made upon him within this Commonwealth, it is ordered that he appear in said Superior Court within two months from the first Monday of February, next and answer to said complaint, and that an attested copy of this order be served on said defendant, Silva Scitote, personally, if possible, or published in the journal, a public newspaper printed at Coleman, Alberta, Canada, three times in different weeks, within thirty days after the date of this order, the last publication to be fourteen days at least before the first Monday of March, next.

Attest:
CHARLES M. CALHOUN,
A true copy. Clerk.

Here and There

(451)
The total value of the principal field crops of Canada for 1929 is estimated at \$198,000,000, about \$10,000,000 less than in 1928.

Construction of the new steamer for the service between Saint John and Digby on the Bay of Fundy is well advanced and it is hoped to have it in operation by next August. Grant Hall, senior vice-president of the Canadian Pacific Railway, announced recently on a visit to the New Brunswick city.

Indicating western Canada's importance in the livestock world, 29 head of registered Aberdeen Angus cattle from Glencairn Farm, famous breeding establishment operated near Brandon by Hon. J. D. McGregor, Lieutenant-Governor of the province, recently arrived at Vancouver by Canadian Pacific Railway for shipment to Australia and New Zealand.

Designed to furnish the immense tractive effort of \$3,200 pounds, a new locomotive, first of its kind on this continent, to be operated on a high steam pressure principle, will be immediately placed under construction at the Angus Shops of the Canadian Pacific Railway. It will be one of the most powerful in the world and will supersede the 5000 engine of the railway as the most powerful in the British Empire. Locomotive tender will weigh 74,000 lbs. or 14,000 lbs. heavier than the \$300 engine and 120,000 lbs. heavier than the 2800 locomotive.

How one \$14,000,000 equipment contract given by the Canadian Pacific Railway to the National Steel Car of Hamilton, during 1929, resulted in 122 business houses, located in four Canadian provinces, securing valuable supply orders and how this far-flung distribution of the company's contract provided steady work and wages for skilled mechanics and large office staffs over a period of months has been revealed by a study of statistics at the National Steel Car Co. and Canadian Pacific Railway.

T. A. Murphy, M.P. of Toronto, was a passenger on S.S. Montrose recently from Saint John. As an official of the Amateur Athletic Union of Canada, Mr. Murphy is on his way to Great Britain to arrange for the British Empire games at Hamilton next August, at which every part of the Empire will be represented by brilliant athletes.

What is regarded as one of the largest real estate transactions on record was made recently when the Canadian Government reached agreements with the Provincial Governments of Manitoba and Alberta for the transfer to those provinces of their natural resources. These include large areas of land, forests, water powers, fisheries, mines, oilfields, etc., and represent a value in excess of a billion dollars. The agreement will be ratified by Parliament at its next session early this year.

The Wilder Silver Medal, one of the highest awards made by the American Pomological Society, has been given to W. T. Macoun, Dominion Horticulturist, for his work in breeding new varieties in apples and for his contribution to horticulture generally. Mr. Macoun has occupied the position of Dominion Horticulturist at the Canadian Government Experimental Farm at Chateaufort for the past 41 years.
